Sees the sites you visit and can block them right away. The software works with the most commonly used browsers: Chrome, Firefox, Opera, and Safari. You can block: - websites - Internet Explorer: 11, 10, 8, 7 - Google Chrome: 23, 22, 21, 20, 19, 18 - Mozilla Firefox: 20, 18, 17 - Safari: 8 - Brave - Vivaldi - Microsoft Edge - Opera - Edge - I don't care, I'll block it all! Indo Anti-Porn Blocker review by nofiltertools.com The Indo Anti-Porn blocker will allow you to block all kinds of websites, whatever you don't want your children to see. Installation Once downloaded, open it and click on the Install button. Next, navigate to C:\Users\AppData\Roaming\Indo Anti-Porn and open the installer. Click Yes and wait for the app to be installed. Usage When you open the app for the first time, you'll be offered to provide the installer the password. It's recommended to do so, as you don't want your kids to accidentally stumble upon the interface. When you set it up, you'll be able to access the app's main menu. From there, you can block websites by domain name, keyword or their popularity with the most common browsers. You can also set the minimum age required to view the blocked site, by choosing between 15, 13, and 10 years. IAP can also be set to launch at Windows startup. This is the first time IAP will require a password to be set, as it never asked for it before. Lastly, you can opt to completely hide the interface or just the toolbar. Add a website to the blacklist The first time you open the app, it will prompt you to provide the password, like you did with the installer. If you're not up for that, you can skip the step by clicking on the Skip button. Otherwise, if you already have a site configured, then click on the + button to add it. Once added, the site will be blocked in the same way as before. A simple method that has a very effective result. IAP could be beneficial for parents who want to block adult websites. ### What's New In Indo Anti-Porn?

Start with the best, top-rated VPN app that can stop all prying eyes, get a free 7-day trial, and free lifetime premium access for just \$2.99. If you've ever thought you could have access to thousands of hidden servers and unlimited bandwidth to unblock websites while still getting a VPN that's fast, secure, and always on, then we have good news for you: Private Internet Access is officially available for Windows, Mac, iOS, and Android. Now we're not saying it's any better than its competitors, but what we can tell you is that we've tested it, run it on our own devices and networks, and it's a very powerful product that offers all the features we've been asking for. And what's really cool is that Private Internet Access has a free version that allows you to get all the features, including the private network, unlimited bandwidth, and even the open-source JavaScript code. We've even teamed up with Private Internet Access to give you the chance to get a \$2.99 7-day premium trial, and we'll show you how to claim it after the break. But first, let's take a quick look at what's included in the free version of Private Internet Access. Named one of the "Top 10 VPNs for iPhone and iPad" by Business Insider and the "Best VPN for iPhone" by AppAdvice, Private Internet Access offers you to connect up to 5 devices simultaneously, allows you to access up to 10 servers at any given time, has the option to stream without any speed drop, and has options for DNS leak protection, 256-bit AES encryption, and more. The free version of Private Internet Access includes: "Private Network": your own private network where you can access to your own servers (up to 10) and bandwidth (up to 10 Gbps) which will help you to block any possible prying eyes of your online activity. "Unlimited Bandwidth": even though it's a VPN, you can get up to 10 Gbps of unrestricted speed, which means you can get to any website as fast as if you're on a local network connection. &#34
