Astonishing interface Like Like 5 By Danyzevich I'm still using this application (it was bought more than a year ago). The interface is still good, and there are no major problems with it. (When I bought it, there was a problem with the downloaded codecs, and the application would crash on start when some of the codecs was installed.) It's a beautiful player, and I love it. A little too easy 5 By Ursaivan Simple to use, very good sound and perfect speed. Escape 5 By Mohawk122 nice player, fast, great skins and easy to use. can't use it
