description Freeware
MICE Scribble Version:
4.00.00 - Size: 4.50 Mb
MICE Scribble is a
freeware tool for drawing
diagrams, models, links,
or models of the type
used in a presentation. It
can also be used to create
tutorials (or Microsoft
Visio files) in a simple
manner. The tool has a
graphical interface, and
therefore is ideal for use
on the desktop. It doesn't
require any installation,

and it doesn't require any special permissions to use. Advantages of a portable app On the bright side, the software skips you the whole effort of pressing a few "Next" buttons to make it work, giving you a chance to check out the set of features from the moment download is done. This allows it to be

MICE Scribble is a drawing app that allows you to draw on your desktop directly from your PC. With MICE Scribble, you don't need a separate paint program on your machine anymore. You can draw directly on your desktop. The multi-touch interface lets you draw on your desktop with one of five different modes: 1. DYNAMIC

POINT 2. DYNAMIC BRUSH 3. DYNAMIC SWIRL 4. POINT-TO-BRUSH 5. POINT-TO-SWIRL Each mode corresponds with one of the main drawing modes, with options to change color, brush size, the number of sides of the brush, and on and on. You can have multiple windows open simultaneously with multiple 'brushes' available for drawing.

There are various options to make your drawings look professional. - You can change color and brush sizes with an easy-to-use color picker. - The application can save drawings as.png (Windows) or.jpg (Mac OS) images that you can share with others. - The application supports the Print Screen key to quickly capture images of what you're drawing on. - You can share your

drawings to Twitter,
Facebook, and email. -
You can export images in
different sizes such as: -
The original size - A large
size (1024x768 pixels) -
A small size (300x200
pixels) MICE Scribble
Supported OS: Microsoft
Windows 8.1, 10 or
Windows Server 2012 or
later. MICE Scribble
Supported Features:
Mouse Touch Interface
You can draw on your
desktop with a mouse and

5 different types of brushes, each with their own visual shape and color. You can change the size of each brush, or even remove them. Drawing Mode There are 5 different drawing modes: - POINT - POINT TO BRUSH - POINT TO SWIRL - BRUSH - SWIRL Each mode corresponds to a different brush, you can choose from a brush size of 5, 10, 25 and 50 pixels.

In POINT mode you can draw with various cursor shapes, including crosshair cursor, trust cursor, diamond cursor, and more. In POINT TO BRUSH mode you can draw with one of various shapes. You can draw line, circle, corner, single side brush, 3, 6, 9, or 12 sided brush. In POINT

10 great business apps for

Android Your smartphone is probably what keeps you on top of your business, so it's important to make sure it's up to scratch. So what sort of apps can you use to help you keep your work on top of your head? Take a look at this list of 10 of the best Android apps that business professionals have put to use. 1. Gmail Email is a necessity for any business, and thanks

to this Android app, you'll be able to log into all of your email accounts directly from your phone. Sign in with your different Gmail, Google+, Yahoo! and Microsoft Outlook accounts using Gmail, Google+ and Yahoo! accounts. 2. Google Drive With Google Drive you can upload files to Google+, as well as storage space for important documents.

This means you'll never be at a loss for space, or not have a desktop to put files on. 3. Evernote Evernote is an app that makes note-taking simpler than you'd think. You can simply type your thoughts, and the app will automatically save them. You can even attach pictures, audio and links. 4. Evernote Pro If you like Evernote's simple touch and go, you'll love Evernote Pro. Pay £2.99

a month or £29.99 a year, and you'll be able to send yourself memos, and create custom lists based on your work. 5. Calculator Using the calculator app on Android is quick and simple. You can quickly find the decimals to calculate, as well as look up and analyse math formulae and equations. 6. WhatsApp WhatsApp is one of the best ways to communicate with clients

or colleagues. WhatsApp can be used to message clients, and share photos as well as audio, video and file. 7. Viber As the name suggests, Viber allows you to make calls and use video calls, even if your friend doesn't own a mobile phone. You can even screen-share, and send stickers as well as other content, so Viber is a great way to stay up to date with your clients. 8. Microsoft Office Mobile

Microsoft Office Mobile
is the online version of
the famous Office suite,
and you can access it
from the app. You can
access Word, Excel,
PowerPoint, as well as
OneNote to keep your
work organised.
