SEASON PASS

Would you like a full set of data from the original version of "Tarnished Soul" only one time after the release of the game? You will then be able to enjoy all newly added story, new class quests, the expanded world map, and the original map reload feature. (Only 3 times per month, which corresponds to each update period of the new

version.)

—————

*Recharge time for ONLINE matches (and other uses of the online function) will extend to more than three hours.

*The following discrepancies were discovered between the original and new version, as our priority in game development on Tarnished Soul is the addition of new content. However, we will continuously supervise it and take measures as needed.

- Changes to character settings such as allocating a large number of attributes may distort your play style.
- Dynamic graphics and sound may be unsuitable for some players' devices due to technical limitations.

RNA polymerase (RNAP) holoenzyme consists of two subunits: the alpha subunit and the beta' subunit. The alpha subunit, encoded by the rpoA gene, appears to function as an initiator, whereas the beta' subunit, encoded by the rpoC gene, appears to function as the elongation subunit. The rpoD gene encodes a small (approximately 7 kDa) protein and has been shown to be essential for the initiation activity of RNAP in E. coli. A bff6bb2d33
